

You will benefit from the following advantages by opting for fleet management provided by NSS Lease:

- Streamlining information - over the entire duration of the agreement, NSS will assign to the customer a unique manager for the entire car park. This service will streamline and render more efficient the communication regarding car park management;

- Your vehicle budget is carefully managed and optimised: you choose the company vehicles that you need; you decide on the term and mileage required; you select any add-ons and you pay a fixed monthly payment that covers each of these criteria.

No surprise and a budget that is spread evenly over the period that suits you.

- No impact on cash flow: payments are deducted as operating expenses over the period in question and therefore have no effect on the structure of your balance sheet.

- The day-to-day management of your vehicles is simplified: NSS Lease experts handle the management and follow-up of your contract from A to Z. They will also provide assistance and close follow up regarding your operating and administrative needs from the vehicle delivery to its final return.

- Efficient and fast control over all information related to the vehicles belonging to the company's car park;

- Specific knowledge of experts in the field;

- Comprehensive offer (financing, insurance, fuel consumption management);

- Professional and personalized consultancy at the height of the Porsche standard;

- Elimination of cash payments for maintenance operations;

- Verification of maintenance invoices in accordance with the manufacturers' recommendations;

- Providing an accessible solution as far as costs are concerned, allowing for the fast recovery of the investment expenses;

- Efficient means of saving the time allotted to car fleet management.

- You concentrate on your business, we concentrate on your and your staff mobility and comfort

NSS - Lease services eliminate risks!

Following a detailed analysis, we shall introduce to you a concept by means of which you will be able to reduce the expenses of your car park by up to 15%.

The 4 stages intended for a more efficient management of the car park:

- Analysis
